It ' s a rebroadcast that includes Colwin ' s " Alone in the Kitchen with an Eggplant " and the story of perhaps the most outrageous recipe ever imagined. When I was alone, I lived on eggplant, the stove top cook ' s strongest ally. I fried it and stewed it, and ate it crisp and sludgy, hot and cold. It was cheap and filling and was delicious in all manner of strange combinations.

Supper for one? Whether you're a career girl, eccentric bedsitter or wild bachelor, this vintage 1950s cookery gem is the essential guide to dining in solitude (with a new foreword by Bee Wilson). The Career Woman (who buys a chicken as a treat) The Bedsitter (who experiments with newfangled gadgets) The Old Lady (who feeds her menagerie of pets) The Schoolboy Moocher (who makes toffee and wallows in grapes) The Bachelor (who learns to stockpile food) Meet the experts in cooking alone . . . 'Every servantless man and woman should read her.' Truth Supper for one? *Cooking Alone* (1954) is a delicious miniature compendium of tales inspired by a cast of eccentric solitary characters. Brimming with entertaining anecdotes, recipes (rabbit with aubergine and prunes, anyone?) and top tips (ever wondered how to store ice cream in a bedsit?), Kathleen Le Riche is a witty, charming guide to the single life. Reissued with a new foreword by Bee Wilson, this vintage delight is a hymn to the pleasures of dining solo. 'A clever book, and amusing too. Somebody ought to bestow its author's name upon a sauce.' *Belfast News Letter* 'Delightful . . . Ingenious.' *Home and Country* 'Remarkable. Aside from its wit and period charm, this [recognises] that the most important ingredient in the kitchen is the human ... Nearly seventy years on, this still feels like a radical message.' Bee Wilson 'Richly imagined ... There is great tenderness and defiance in Le Riche's attention to the pleasures of the solitary cook.' Rebecca May Johnson

A unique feast for body and soul, "Home Cooking" shares the delightful pleasures of discovering cooking and eating good, simple food. Colwin combines her insightful, good-humored writing style with her lifelong passion for wonderful food in such essays as "Alone in the Kitchen with an Eggplant", "Repulsive Dinners: A Memoir" and "Stuffed Breast of Veal: A Bad Idea".

"I love my mom and I'm a good cook, and still I can't help wishing that Emily Franklin would adopt me--or maybe send me a care package. But at least I've got her recipes now. And this book, which is the perfect mix of heartwarming and mouthwatering. Yum." --Catherine Newman, author of *Waiting for Birdy* "Emily Franklin's *Too Many Cooks* is a boon for anyone trying to cook healthy simple meals for children. It is also great fun for those of us who love to peek at the domestic lives of others. Franklin has a warm, unpretentious voice and appealing recipes that are asking to be tried." --Jenni Ferrari-Adler, author of *Alone in the Kitchen with an Eggplant* Hilarious and wise, *Too Many Cooks* celebrates a year in the family kitchen with one mom, four kids, and a picky pediatrician husband. Emily Franklin's food memoir *Too Many Cooks* was born of two simple loves: food and children. A foodie and former chef, Franklin wants to pass on her love of food and cooking to her kids; she wants them not only to enjoy what they're eating but to know what they're eating. So, over the course of a year, she introduces her children to new dishes--some exotic, some thrown together with whatever she has in her cabinets--with varying degrees of success. Undaunted by failure ("This tastes like sand!"), Franklin pursues her culinary mission from the heartland of Indiana to the Umbrian countryside. Some meals conjure visions of pleasure while others are utter catastrophes. Along the way, she discovers how a delicious (or even disastrous) meal can bring families together and feed the soul. As Franklin chronicles her family's year around the kitchen table, season by season, she shares original recipes. From comfort, kid-friendly food like Mummy Nuggets, to the more adventurous Saffron Fish Chowder, to food made on the fly like Orange-Oaty-I-Don't-Know Cookies, each recipe follows a charming or bittersweet or laugh-out-loud anecdote that captures the chaos of cooking for

four young kids. Franklin seasons her stories with how-I-did-it advice on cooking and parenting that makes this such a delightful and inspiring read. And with more than 100 simple, mouthwatering dishes, *Too Many Cooks* is a happy mix of recipes, memories, and good storytelling.

Based on the popular Harvard University and edX course, *Science and Cooking* explores the scientific basis of why recipes work. The spectacular culinary creations of modern cuisine are the stuff of countless articles and social media feeds. But to a scientist they are also perfect pedagogical explorations into the basic scientific principles of cooking. In *Science and Cooking*, Harvard professors Michael Brenner, Pia Sörensen, and David Weitz bring the classroom to your kitchen to teach the physics and chemistry underlying every recipe. Why do we knead bread? What determines the temperature at which we cook a steak, or the amount of time our chocolate chip cookies spend in the oven? *Science and Cooking* answers these questions and more through hands-on experiments and recipes from renowned chefs such as Christina Tosi, Joanne Chang, and Wylie Dufresne, all beautifully illustrated in full color. With engaging introductions from revolutionary chefs and collaborators Ferran Adria and José Andrés, *Science and Cooking* will change the way you approach both subjects—in your kitchen and beyond.
