This comprehensive manual covers all aspects required by Module 4 ECDL/ICDL Syllabus 4.0. Data files are supplied with the manual which allow practice of the different software features. It is approved by the ECDL Foundation.

Module 4 ECDL/ICDL Syllabus 4.0. This manual helps you learn how to design spreadsheets, how to use basic functions to perform calculations within your spreadsheet and how to create and format charts. The manual comes with its own data files which you use for practising the relevant exercises. Approved by the ECDL Foundation.

With the availability of new emerging evidence on the treatment of drug resistant TB (DR-TB), the WHO has recently updated the DR-TB treatment guidelines by convening a guideline development group meeting in 2019 and then by releasing the WHO Consolidated Guidelines on Tuberculosis, Module 4: Treatment - Drug-Resistant Tuberculosis Treatment in June 2020. These guidelines include a comprehensive set of WHO recommendations, grouping all new and existing recommendations on the treatment and care of DR-TB in one document. The consolidated guidelines are complemented by an operational handbook which is designed to assist with implementation of the WHO recommendations by Member States, technical partners and others who are involved in the management of patients with DR-TB. The WHO Operational Handbook on Tuberculosis, Module 4: Treatment - Drug-Resistant Tuberculosis Treatment provides practical guidance on how to put in place the recommendations at the scale needed to achieve national and global impact. The strategies described in the operational handbook are based on the latest WHO recommendations which were formulated by Guideline Development Groups using the GRADE approach. In many cases however, the recommendations in their current form lacked sufficient clinical and programmatic detail, which is important for implementation. This operational handbook complements the guidelines with practical advice based on best practices and knowledge from the fields such as pharmacokinetics, pharmacodynamics, microbiology, pharmacovigilance and clinical and programmatic management.
