The angle of repose, or critical angle of repose, of a granular material is the steepest angle of descent or dip relative to the horizontal plane to which a material can be piled without slumping. At this angle, the material on the slope face is on the verge of sliding. The angle of repose can range from 0° to 90° .

The dictionary tells us that an angle of repose means “the steepest angle at which a sloping surface formed of a particular loose material is stable”. A fitting enough title for a story that had a lot to do with mining and engineering, but in Stegner’s capable hands it comes to mean much more.

The second half of the book explained what angle of repose meant in the context: it’s a metaphor for two people who remain together although they having nothing in common. The story is about two married peopel whose lives were like two horizontal lines that never intersected; but, despite having nothing in common, they stayed together by remaining kind and respectful to each other.

The "Angle of Repose" was on most of these lists and in my opinion it should be on all of them. Before I begin my review, let me state my bias. There is a huge difference between a book and a novel. A book is (generally) a fast paced and entertaining story. It may deal with geopolitics, romance, horror, murder, or any other topic you can think of.

What does Angle of Repose Mean? Definition of Angle of Repose in Construction: The angle of repose is the normal and natural angle that dirt, sand, gravel, stone, or other natural site-work material will take, if left to seek its own equilibrium. If an excavator is digging in a damp clay material, and there is a natural ability for the material to stand on its own, there could be a 90 degree angle of repose, initially.

Stegner's Pulitzer Prize-winning novel is the story of four generations in the life of an American family. A wheelchair-bound retired historian embarks on a monumental quest: to come to know his grandparents, now long dead. The unfolding drama of the story of the American West sets the tone for Stegner's masterpiece.

Stegner's Pulitzer Prize-winning novel of personal, historical, and geographic discovery
Confined to a wheelchair, retired historian Lyman Ward sets out to write his grandparents' remarkable story, chronicling their days spent carving civilization into the surface of America's western frontier. But his research reveals even more about his own life than he's willing to admit. What emerges is an enthralling portrait of four generations in the life of an American family. "Cause for celebration . . . A superb novel with an amplitude of scale and richness of detail altogether uncommon in contemporary fiction." —The Atlantic Monthly "Brilliant . . . ?Introduction by Terry Tempest Williams Afterword by T. H. Watkins ?Called a “magnificently crafted story . . . brimming with wisdom” by Howard Frank Mosher in *The Washington Post Book World*, *Crossing to Safety* has, since its publication in 1987, established itself as one of the greatest and most cherished American novels of the twentieth century. Tracing the lives, loves, and aspirations of two couples who move between Vermont and Wisconsin, it is a work of quiet majesty, deep compassion, and powerful insight into the alchemy of friendship and marriage.

Egypt provides a classic rather than a unique experience. According to modern historians, it has been a tourist destination since 30 B.C., and the interest of foreign travelers has hardly waned since. The photographers presented here are no exception; each knits past with present while validating their own discovery of Egypt's ancient monuments. From the pyramids

of Giza to the Valley of the Kings, Lynn Davis' and Linda Connor's silver gelatin prints echo nineteenth-century photographers' documentations of their North African travels. Strewn with scaffolding, piecemeal temples and shattered sculptures of pharaohs, Tom Van Eynde's Egypt reveals the dramatic detail of its ruins. Harsh and colorful, Richard Misrach's landscapes juxtapose contemporary culture with ancient desert monuments, framing the Pyramids with tour buses, downtown Cairo, and cement housing complexes. "The Angle of Repose" is the first book in a series featuring the LaSalle Bank Photography Collection, the second-oldest corporate collection of photography in America.

Joe Allston, the retired literary agent of Stegner's National Book Award-winning novel, *The Spectator Bird*, returns in this disquieting and keenly observed novel. Scarred by the senseless death of their son and baffled by the engulfing chaos of the 1960s, Allston and his wife, Ruth, have left the coast for a California retreat. And although their new home looks like Eden, it also has serpents: Jim Peck, a messianic exponent of drugs, yoga, and sex; and Marian Catlin, an attractive young woman whose otherworldly innocence is far more appealing—and far more dangerous.

Literary agent Joe Allston, the central character of Stegner's novel *All the Little Live Things*, is now retired and, in his own words, 'just killing time until time gets around to killing me.' His parents and his only son are long dead, leaving him with neither ancestors nor descendants,

tradition nor ties. His job, trafficking the talent of others, had not been his choice. He passes through life as a spectator. A postcard from an old friend causes Allston to return to the journals of a trip he and his wife had taken years before, a journey to his mother's birthplace, where he'd sought a link with the past. The memories of that trip, both grotesque and poignant, move through layers of time and meaning, and reveal that Joe Allston isn't quite spectator enough. Wallace Stegner was the author of, among other works of fiction, *Remembering Laughter* (1973); *The Big Rock Candy Mountain* (1943); *Joe Hill* (1950); *All the Little Live Things* (1967, Commonwealth Club Gold Medal); *A Shooting Star* (1961); *Angle of Repose* (1971, Pulitzer Prize); *Recapitulation* (1979); *Crossing to Safety* (1987); and *Collected Stories* (1990). His nonfiction includes *Beyond the Hundredth Meridian* (1954); *Wolf Willow* (1963); *The Sound of Mountain Water* (essays, 1969); *The Uneasy Chair: A Biography of Bernard deVoto* (1964); *American Places* (with Page Stegner, 1981); and *Where the Bluebird Sings to the Lemonade Springs: Living and Writing in the West* (1992). Three short stories have won O.Henry prizes, and in 1980 he received the Robert Kirsch Award from the Los Angeles Times for his lifetime literary achievements.

Written over a 25-year period, during a time when the West witnessed rapid changes to its cultural and natural heritage, the essays, memoirs, letters and speeches contained in "*The Sound of Mountain Water*" established Wallace Stegner's reputation as an important conservationist and novelist.
