original case studies to offer a historical perspective for better analyzing world affairs. Providing in-depth historical illustrations of core concepts in international relations, this casebook surveys major events in the 20th and 21st centuries and highlights both enduring and emerging problems. Case Histories in International Politics looks beyond current events to help readers make meaningful comparisons between what happened in the past and what is happening now.

Existing textbooks on international relations

Download File PDF Case Histories In International Politics 1st Edition

treat history in a cursory fashion and perpetuate a Euro-centric perspective. This textbook pioneers a new approach by historicizing the material traditionally taught in International Relations courses, and by explicitly focusing on non-European cases, debates and issues. The volume is divided into three parts. The first part focuses on the international systems that traditionally existed in Europe, East Asia, pre-Columbian Central and South America, Africa and Polynesia. The second part discusses the ways in which these international systems were brought into

contact with each other through the agency of Mongols in Central Asia, Arabs in the Mediterranean and the Indian Ocean, Indic and Sinic societies in South East Asia, and the Europeans through their travels and colonial expansion. The concluding section concerns contemporary issues: the processes of decolonization, neo-colonialism and globalization - and their consequences on contemporary society. History of International Relations provides a unique textbook for undergraduate and graduate students of international relations, and anybody interested in international relations

available under a Creative Commons (BY-NC-ND) open access license. This text aims to fill a gap in the field of Middle Eastern political studies by combining international relations theory with concrete case studies. It begins with an overview of the rules and features of the Middle East regional system—the arena in which the local states, including Egypt, Turkey, Iran, Israel and the Arab states of Syria, Jordan and Iraq, operate. The book goes on to analyse foreign-policy-making in key states, illustrating how systemic determinants constrain this policy-making, and how these constraints are dealt with in

distinctive ways depending on the particular domestic features of the individual states. Finally, it goes on to look at the outcomes of state policies by examining several major conflicts including the Arab-Israeli conflict and the Gulf War, and the system of regional alignment. The study assesses the impact of international penetration in the region, including the historic reasons behind the formation of the regional state system. It also analyses the continued role of external great powers, such as the United States and the former Soviet Union, and explains the process by which the region has become

incorporated into the global capitalist market.

Examines the Darfur crisis to address wider debates within IR theory including: the "responsibility to protect", humanitarian intervention, sovereignty, peacekeeping, relationships between the world's great powers, and international mediation.

Secret Wars is the first book to systematically analyze the ways powerful states covertly participate in foreign wars, showing a recurring pattern of such behavior

Download File PDF Case Histories In International Politics 1st Edition

stretching from World War I to U.S.-occupied Iraq. Investigating what governments keep secret during wars and why, Austin Carson argues that leaders maintain the secrecy of state involvement as a response to the persistent concern of limiting war. Keeping interventions “backstage” helps control escalation dynamics, insulating leaders from domestic pressures while communicating their interest in keeping a war contained. Carson shows that covert interventions can help control escalation, but they are almost always detected by other major powers. However, the shared value of limiting war can

Download File PDF Case Histories In International Politics 1st Edition

lead adversaries to keep secret the interventions they detect, as when American leaders concealed clashes with Soviet pilots during the Korean War. Escalation concerns can also cause leaders to ignore covert interventions that have become an open secret. From Nazi Germany's role in the Spanish Civil War to American covert operations during the Vietnam War, Carson presents new insights about some of the most influential conflicts of the twentieth century. Parting the curtain on the secret side of modern war, *Secret Wars* provides important lessons about how rival state

powers collude and compete, and the ways in which they avoid outright military confrontations.

This book systematically explores how different theoretical concepts of myth can be utilised to interpretively explore contemporary international politics. From the international community to warlords, from participation to effectiveness - international politics is replete with powerful narratives and commonly held beliefs that qualify as myths. Rebutting the understanding of myth-as-lie, this collection

Download File PDF Case Histories In International Politics 1st Edition

of essays unearths the ideological, naturalising, and depoliticising effect of myths. *Myth and Narrative in International Politics: Interpretive Approaches to the Study of IR* offers conceptual and methodological guidance on how to make sense of different myth theories and how to employ them in order to explore the powerful collective imaginations and ambiguities that underpin international politics today. Further, it assembles case studies of specific myths in different fields of International Relations, including warfare, global governance, interventionism,

Download File PDF Case Histories In International Politics 1st Edition

development aid, and statebuilding. The findings challenge conventional assumptions in International Relations, encouraging academics in IR and across a range of different fields and disciplines, including development studies, global governance studies, strategic and military studies, intervention and statebuilding studies, and peace and conflict studies, to rethink ideas that are widely unquestioned by policy and academic communities.

This comprehensive guide captures important trends in international relations (IR)

induced changes to the natural environment, analyze the actors and institutions that constrain and shape actions on environmental issues, show how environmental changes influence foreign policy processes, and critically assess environmental foreign policies. This book examines the problem of global climate change and assesses the manner in which governments and other actors have attempted to deal with it. It presents a series of in-depth international case studies on climate policy in Australia, Japan, China, Turkey, Hungary, Denmark, France, the European Union and the United States. The

authors demonstrate how studying environmental foreign policy can help us to better understand how governments, businesses and civil society actors address—or fail to address—the critical problem climate change. This book will be of strong interest to scholars and students of environmental policy and politics, foreign policy, public policy, climate change and international relations.

Comprehensive examination of restraint in international politics, considered across a range of contexts as a political process, device, and strategy.
