Mariner 2-cylinder inline, Mariner 3-cylinder inline, Mariner 4-cylinder inline, Mariner 6-cylinder inline, Mariner V6

More and more sailors and powerboaters are buying and relying on electronic and electric devices aboard their boats, but few are aware of proper installation procedures or how to safely troubleshoot these devices if they go on the blink.

This project-oriented facilities design and material handling reference explores the techniques and procedures for developing an efficient facility layout, and introduces some of the state-of-the-art tools involved, such as computer simulation. A "how-to," systematic, and methodical approach leads readers through the collection, analysis and development of information to produce a quality functional plant layout. Lean manufacturing; work cells and group technology; time standards; the concepts behind calculating machine and personnel requirements, balancing assembly lines, and leveling workloads in manufacturing cells; automatic identification and data collection; and ergonomics. For facilities planners, plant layout, and industrial engineer professionals who are involved in facilities planning and design.

This set contains 2 binders and nine books. The books are as follows: Outboard Motor Service Manual Volume 1, Outboard Motor Service Manual Volume 2, Old Outboard Motor Service Manual Volume 1, Old Outboard Motor Service Manual Volume 2, Inboard Outdrive Service Manual, Inboard Engine/Transmission and Drive Service Manual, Personal Water Vehicles Manuals, Outboard Flat Rate Manual, and Motor and Board Identification Reference Manual.
