'IN MY HOUSE THERE ARE MANY MANSIONS, ' JESUS STATED. NOW HERE IS THE PROOF! "Evidence has accumulated that there are people on earth that don't really belong here!" George Hunt Williamson, author of OTHER TONGUES OTHER FLESH stated as early as 1955. This doesn't mean they came here aboard a flying saucer, disembarked, put on a tweed suit, polished up their earthly languages and moved into the house next door. It does mean, however that there is a special class or order of beings in the Universe that are different from us because of the fact that they must wander from one world to another, and from place to another. They are the "chimney sweeps" of creation. It is their specific job to be

Williamson deciphers the strange symbols left from a depression of the bottom of the spaceman's shoes in the soil from which a plaster of paris cast was made on the spot. This is the famous George Adamski contact with Orthon in the desert which Williamson was the primary witness too this event. Here are SECRETS concerning the creating of life and the evolution of humankind entrusted to only a handful. And, although Williamson has passed

on his legacy is vastly important. So much so that Alec Hidell in the Excluded Middle recently confided: "There can be no doubt that, by accident or design, Williamson and his various collaborators played an enormous part in shaping New Age thought in all its manifestations. Together they constituted the single most important occult group of the post-war era. Their influence is made all the more remarkable by the fact that it has seldom been acknowledged, or even perceived by other researchers in the field."

Here is a book that brings home this tremendous fact with a dynamic force and sweep that will astound the reader, and convince him beyond all doubt. Here is a history, a collection of proof, and a tremendous theory.

The first comprehensive biography of a true pioneer, George Hunt Williamson. A world premiere! Most of the information results from the perseverance, the passion and the painstaking investigative efforts of researcher and author, Michel Zirger. The reader will find a great many revelations, in particular about the first "Close Encounter of the Third

Kind” in modern times, at the end of which photographs and plaster casts of alien footprints were made; the unexpected connection between Williamson and the famous Italian Amicizia (“Friendship”) case; and his mystical stay in the Andes.

Williamson’s life is totally “revisited” thanks to unpublished documents now in Michel Zirger's possession, which will end errors and gossip that has been rehashed for decades. We owe Williamson for the concept of “Ancient Aliens,” developed in seminal books such as *Other Tongues—Other Flesh*, *Secret Places of the Lion*, *Road in the Sky* and *Secret of the Andes*. Maurizio Martinelli’s erudition offers innovative insights on certain aspects of George Hunt Williamson’s life, for instance, the affinities of his work with that of Zecharia Sitchin. Martinelli is the Italian

specialist of George Hunt Williamson. An accurate researcher with a fair and balanced view, he forms the perfect tandem with Michel Zirger to decipher the life and work of this enigmatic figure, whose influence remains strong in the field of ufology and esotericism.

Working at the local processing plant, Marcos is in the business of slaughtering humans—though no one calls them that anymore. His wife has left him, his father is sinking into dementia, and Marcos tries not to think too hard about how he makes a living. After all, it happened so quickly. First, it was reported that an infectious virus has made all animal meat poisonous to humans. Then governments initiated the “Transition.” Now, eating human meat—“special meat”—is legal. Marcos tries to stick to numbers,

analyzing what the Christian tradition has to say about the flesh of Christians in relation to that of Christ, the book shows that some kinds of fleshly activity conform well to being a Christian, while others are in tension with it. But to lead a Christian life is to be unconstrained by ordinary ethical norms. Arguing that no particular case of fleshly activity is forbidden, Paul J. Griffiths illustrates his message through extended case studies of what it is for Christians to eat, to clothe themselves, and to engage in physical intimacy.

Origin of the 'Tongues' Movement;

For the first time ever, painstaking investigation by the highly-respected French author and researcher Michel Zirger, has uncovered the truth about what really happened in the California Desert on November 20, 1952 when George Adamski and six witnesses encountered a man from a spacecraft in broad daylight. His name came to be known as "Orthon." The photographs taken that day have been enhanced using new, standard, digital techniques that now reveal the craft, the large mothership floating above and - most intriguingly - Orthon himself. The significance of this photographic validation of Adamski's claims becomes clear as we progress

through the author's own contacts with apparent extraterrestrials in Japan, where he now lives, always with witnesses present. Zirger's own journey toward accepting the simple reality that intelligent life throughout the universe is human is amplified as he recounts the first-hand experiences of others, some untold until now. Richly illustrated with rare and often unpublished items, "We Are Here!" takes the reader on a journey that transcends mainstream Ufology and, indeed, much twentieth-century history. It is a journey that reveals significant new truths about Humanity and our place in the Universe.
