offers another exhilarating look at modern science as he mounts an even more powerful attack on artificial intelligence. But perhaps more important, in this volume he points the way to a new science, one that may eventually explain the physical basis of the human mind.

Shadows of the Mind: A Search for the
Missing Science of ...

Shadows of the Mind Roger Penrose. This book attempts to take a firm grip on a corner of the slippery issue of consciousness. It is directly related to Roger Penrose's earlier, hugely successful work, *The Emperor's New Mind*.

Although much space is devoted to painstaking replies to the criticisms made of the earlier book, this is not simply a sequel.
