Question how American democracy is developing The Struggle for Democracy provides students with an understanding of the American political process and with the tools to critically evaluate that process. This text focuses on the role that democracy has played in the American story and asks students how democracy is-or isn't-revealed in our politics and government. It encourages students to examine how deeply connected politics and government are with historical, economic, and social influences. The Struggle for Democracy both strengthens a fundamental aspect of critical thinking and tells a unique story of our country's political development. This text features full integration with the New MyPoliSciLab. MyPoliSciLab includes a wide array of resources to encourage students to look at American politics like a political scientist and analyze current political issues. Political Explorer lets students play the role of a political scientist by investigating issues through interactive data. Core Concept videos discuss the big ideas in each chapter and apply them to key political issues. Simulations allow students to experience how political leaders make decisions. A better teaching and learning experience This program provides a better teaching and learning experience-for you and your students. Here's how: Personalize Learning-The New MyPoliSciLab delivers proven results in helping students succeed, provides engaging experiences that personalize learning, and comes from a trusted partner with educational expertise and a deep commitment to helping students achieve their goals. MyPoliSciLab is now compatible with Blackboard! Engage Students-The stunning visual design engages students in the text. Improve Critical Thinking- Learning objectives in every chapter help students focus on important topics. Analyze Current Events-Coverage of the 2012 elections keeps the study of politics relevant and shows how political scientists look at the development of the American political system. REVEL™ for The Struggle for Democracy offers students the tools they need to critically analyze our political system and make judgments about how well our government works. Taking a fresh approach to common American government topics, authors Edward Greenberg and Benjamin Page provide an analytical framework for understanding how politics and government work, and encourage students to consider the questions " How democratic are we? " and " Can government do anything well? " In order to boost student engagement with key concepts, REVEL for the 2014 Elections and Updates Edition incorporates coverage of contemporary issues that dominate today's headlines, as well as the most up-to-date data. REVEL is Pearson's newest way of delivering our respected content. Fully digital and highly engaging, REVEL offers an immersive learning experience designed for the way today's students read, think, and learn. Enlivening course content with media interactives and assessments, REVEL empowers educators to increase engagement with the course, and to better connect with students. NOTE: REVEL is a fully digital delivery of Pearson content. This ISBN is for the standalone REVEL access card. In addition to this access card, you will need a course invite link, provided by your instructor, to register for and use REVEL.

In 1915, the United States experienced the 9/11 of its time. A German torpedo sank the Lusitania killing nearly 2,000 innocent passengers. The ensuing hysteria helped draw the United States into World War I—the bitter, brutal conflict that became known as the Great War and the War to End All Wars. But as U.S. troops fought to make the world safe for democracy abroad, our own government eroded freedoms at home, especially for German-Americans. Free speech was no longer an operating principle of American democracy. Award-winning author Ann Bausum asks, just where do Americans draw the line of justice in times of war? Drawing thought-provoking parallels with President Wilson ' s government and other wartime administrations, from FDR to George W. Bush, Bausum ' s analysis has plenty of history lessons for the world today. Her exhaustive research turns up astonishing first-person stories and rare images, and the full-color design is fresh and stunning. The result is a gripping book that is well-positioned for the run-up to the World War I centennial. National Geographic supports K-12 educators with ELA Common Core Resources. Visit www.natgeoed.org/commoncore for more information.

Shows how the struggle for democracy has been waged in civil society, through opposition parties, and amongst traditionally marginalised groups like women and the young. This book also considers the remaining impediments to democratisation, in the form of a powerful police force and damaging structural adjustment policies.

On the tenth anniversary of the September 11, 2001 terrorist attacks, David Ray Griffin reviews the troubling questions that remain unanswered 9/11 Ten Years Later is David Ray Griffin's tenth book about the tragic events of September 11, 2001. Asking in the first chapter whether 9/11 justified the war in Afghanistan, he explains why it did not. In the following three chapters, devoted to the destruction of the World Trade Center, Griffin asks why otherwise rational journalists have endorsed miracles (understood as events that contradict laws of science). Also, introducing the book's theme, Griffin points out that 9/11 has been categorized by some social scientists as a state crime against democracy. Turning next to debates within the 9/11 Truth Movement, Griffin reinforces his claim that the reported phone calls from the airliners were faked, and argues that the intensely debated issue about the Pentagon—whether it was struck by a Boeing 757—is quite unimportant. Finally, Griffin suggests that the basic faith of Americans is not Christianity but "nationalist faith"—which most fundamentally prevents Americans from examining evidence that 9/11 was orchestrated by U.S. leaders—and argues that the success thus far of the 9/11 state crime against democracy need not be permanent.

Do democracies bring about greater equality among their citizens? India embraced universal suffrage in 1947 and yet its citizens are far from realizing equality. The U.S. struggles with intolerance and inequality well into the twenty-first century. Nico Slate offers a new look at the struggle for freedom that linked two former British colonies.

NEW YORK TIMES BESTSELLER ? The shocking, definitive account of the 2020 election and the first year of the Biden presidency by two New York Times reporters, exposing the deep fissures within both parties as the country approaches a political breaking point. This is the authoritative account of an eighteen-month crisis in American democracy that will be seared into the country ' s political memory for decades to come. With stunning, in-the-room detail, New York Times reporters Jonathan Martin and Alexander Burns show how both our political parties confronted a series of national traumas, including the coronavirus pandemic, the January 6 attack on the Capitol, and the political brinksmanship of President Biden ' s first year in the White House. From Donald Trump ' s assault on the 2020 election and his ongoing campaign of vengeance against his fellow Republicans, to the behind-the-scenes story of Biden ' s selection of Kamala Harris as his running mate and his bitter struggles to unite the Democratic Party, this book exposes the degree to which the two-party system has been strained to the point of disintegration. More than at any time in recent history, the long-established traditions and institutions of American politics are under siege as a set of aging political leaders struggle to hold together a changing country. Martin and Burns break news on most every page, drawing on hundreds of interviews and never-before-seen documents and recordings from the highest levels of government. The book asks the vitally important (and disturbing) question: can American democracy, as we know it, ever work again?
